DIRECT INVESTMENT ABROAD BY CANADA, 1946-1967

AMENDMENT LIST NUMBER 1 FOR 1968 AND 1969

The amendments which follow update the main tables of the working paper Direct Investment Abroad By Canada, 1946-1967, which was issued in February, 1971. The amendments incorporate data published by Statistics Canada up to March, 1972.

Some of the content consists of revised figures for years which were included in the original tables. The remainder consists of new figures for later years.

The basic source of new information was Canada's International Investment Position, 1926-1967. This publication included new data on the book value of direct investment for 1968 and 1969 and, in some instances, revised data for 1967. A second source, Quarterly Estimates of the Canadian Balance of International Payments gave new data for net capital outflows from 1969 to 1971.

Each table states the sources on which it is based.

Each table in this amendment bears the reference number of the table which it amends. These amendments should only be read in conjunction with the original tables, since the original footnotes and notes on sources have not been repeated, with a few exceptions. The original footnotes may affect interpretation of the new figures.

GENERAL NOTE

The title of the original table CDX-16 is "Book Value of Direct Investment Abroad, Unrevised Data By Country Of Control Of The Canadian Investor, Together With Revised Totals, Year-Ends 1965-1969". The phrases "Unrevised Data" and "Together With Revised Totals" have been deleted from the title of this amendment because they do not apply to the data presented in it.

In the original table CDX-16, columns (1) and (2) were needed because only unrevised data were available for the geographic breakdown whereas revised data were available for the totals. However, in this amendment the data for the geographic breakdown totals. Column (1) thus now duplicates column (2) but it is included in this amendment to provide continuity.
